CORAL is truly a multifunctional piece of furniture. Be creative and combine the colours and materials to perfectly complement your interior.

Year of design: 2011

Function:

Decorative.

Multifunctionel.

Sales Arguments:

Geometric and funtional design...

A ultrafunktionel pouf with its sculptural design is a quite right accessory in an exciting design. A play with classical, geometric forms gives a design that surprises and challenges the common comprehension of this classical type of furniture.

Design: busk+hertzog

busk+hertzog was established in Denmark in 2000 by Flemming Busk and Stephan Hertzog, and their successful studio, today located in Lisbon Portugal, has won more than 75 of the most prestigious international design awards, including Red Dot Award - Best of Best, IF Awards and Good Design Awards. busk+hertzog's design characteristics are sculptural, clean lines and a simple expression with mini-mal embellishment, and they often get their inspiration from shapes and lines found in nature.

Flemming Busk has worked with SOFTLINE since 1999, where he won our idea competition with his simple yet brilliant sofa bed SLEEP. He has also specially designed, among other things, the HELLO chair for the world-famous pop star Kylie Minogue.
