

Grove Flowerpot Ø17, H60 cm

Grove

Grove is a series of flowerpots designed to create small green breathing spaces in the home. The characteristic shape of the pots is designed to give the plants room and space to grow, while the calming aesthetics are designed not to steal attention. All deliberately designed to elevate your interior space, highlight the green and natural elements, and thereby create a unique feeling of well-being and tranquility in your home. A thoughtful design made of natural and durable materials that ages gracefully and effortlessly balances beauty, form and colour.
