

## FOLIA

Table high  
Art. no.: 2-411

Table low  
Art. no.: 2-412

### Description:

#### **Invite nature in**

With its thin frame and tripartite top, this metal table is inspired by the shape of a clover. It is available in two heights and can be used on its own, but looks best if you put several together in a cluster or overlapping pairs. The design is light and simple, with clear parallels to nature.

Folia comes lacquered in black, white or grey.

Year of design: 2015

### Design: Charlotte Hoencke

I graduated as an industrial designer from the Danish School of Architecture in 2002, but soon discovered that furniture design was my passion. I founded my own studio in Aarhus in 2010, where I design furniture, lamps and related products, mainly for the home. I like to combine functionality and aesthetics with small, surprising details. I always have a clear basic idea that is the starting point for the design, and then take a playful approach to the details with elements such as stitching, buttons, etc. There must be some details that make the furniture stand out. I like creating furniture that's unpretentiously cozy and humorous.
