

Immerse™ Table

Collaborate Working

IMMERSE™ TABLE

NEW LEVELS OF COLLABORATION

As space design requires more flexibility, organizations recognize the growing need for adaptable spaces that support the diverse and dynamic ways people work. The Immerse table creates a landscape of varied surfaces to support working in a communal way and the temporality of meetings. It provides a community hub that transforms the evolution of collaborative experiences, allowing interactions to organically change by the moment.

Immerse is a playful table solution with a residential aesthetic that warms up the work environment. It adds a fun and unique personality to community spaces – from conference rooms to project spaces, studios, and dining areas.

Immerse enables today's workstyles by offering a micro atmosphere with options for where to work in one space, stimulating group interaction and supporting individual work. It helps create destinations that foster well-being through physical, cognitive, and emotional ergonomics, creating a sense of wholeness for people at work.

DETAILS

DESIGNED by Haworth Design Studio and Patricia Urquiola

VARIETY of shapes, sizes, and levels makes a space more inviting, supporting different activities, and nurturing a sense of community.

VARIATION IN TABLE HEIGHTS to create opportunities for combined sit/stand postures so everyone is at a visible level.
