

TRIBECA

Table small
Art. no.: 2-829

Table large
Art. no.: 2-828

Description:

Asymmetrical refined look

The design of this funky coffee table challenges the conventional perception of what legs on a coffee table should look like. The frame is based on a simple construction using angles and repetition to produce a surprisingly asymmetrical and sophisticated look.

Year of design: 2012

Design: busk+hertzog

busk+hertzog was established in Denmark in 2000 by Flemming Busk and Stephan Hertzog, and their successful studio, today located in Lisbon Portugal, has won more than 75 of the most prestigious international design awards, including Red Dot Award - Best of Best, IF Awards and Good Design Awards. busk+hertzog's design characteristics are sculptural, clean lines and a simple expression with mini-mal embellishment, and they often get their inspiration from shapes and lines found in nature.

Flemming Busk has worked with SOFTLINE since 1999, where he won our idea competition with his simple yet brilliant sofa bed SLEEP. He has also specially designed, among other things, the HELLO chair for the world-famous pop star Kylie Minogue.
